Professional Summary

B.Tech student in **Artificial Intelligence and Data Science** with hands-on experience in **Python, Java, C, Full-Stack Development, AI, Data Science, and Cybersecurity**. Interested in building practical software solutions and exploring AI-driven technologies, secure systems, and modern web applications. Experienced in developing academic projects including USB security and movie ticket booking systems.

Projects

USB Security Project

- Developed a security-focused project designed to improve the protection and controlled usage of USB storage devices.
- Applied programming and cybersecurity concepts to identify and manage potential USB security risks.

Movie Ticket Booking System

- Developed a movie ticket booking application for browsing movies and managing ticket booking workflows.
- Applied programming and database concepts to create a structured and user-friendly booking system.

Experience

Cybersecurity Intern

Supraja Technologies

- Gained practical exposure to cybersecurity concepts, ethical hacking, vulnerability assessment, and network security.
- Worked with cybersecurity tools and techniques used for identifying and understanding security vulnerabilities.

Python Full-Stack Intern

Pentagon Space

- Gained hands-on experience with Python and full-stack web development concepts.
- Worked with frontend and backend development principles while building practical software applications.

Technical Skills

Programming	C, Python, Java
Web Development	Full-Stack Development, HTML, CSS, JavaScript
AI / Data Science	Artificial Intelligence, Data Science, Prompt Engineering
Cybersecurity	USB Security, Cybersecurity Fundamentals, Security Concepts
Tools	GitHub, VS Code

Hackathons & Achievements

- Participated in the **Narayana 24-Hour Hackathon**, gaining practical experience in rapid problem-solving, teamwork, and software development.

Education

B.Tech in Artificial Intelligence & Data Science — NBKRIST

2023 – 2027

CGPA: 6.5/10

Intermediate — SR Junior College

2021 – 2023

Score: 60%
